## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 1, 2006 has been entered.

2. Applicant has canceled Claims 1-22. Claims 23-42 are pending.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 23-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23, line 12, "and" is not consistent with "at least one of" from line 11. It appears the "and" should be an "or" for clarity.

Similar instances in lines 17 and 21. Similar issues arise from claim 42.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 23-42, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Hilt et al., US 6,408,284.

Hilt discloses a computer-implemented method comprising an account, e.g. bank or consumer account, a processing device, e.g. payment network, and generating an information report, e.g. 170. Hilt does not disclose a wireless transaction. Official Notice is taken that wireless transactions of data has been common knowledge in the transaction art. To have provided such for Hilt would have been obvious to one of ordinary skill in the art.
